Apple Blossom Time

Mrs. Sadie Tunford, Redwood City, Calif., would like to have someone analyze the "secret urges" which have pushed her two-year-old apple tree to blossom five times within a year and to bear four crops of fruit.

Happy Family

A big, happy family, all year round, are employees of the Central Vermont railway. A glance at the payroll roster reveals the names of Parent, Child, Relation and Friend. Then there are Summers, Winters, Raine, Snow, Fogg, Halls, Frost and Flood.

Women Healthier

According to medical authorities, women are healthier than men. For every man who reaches the age of 100, eight women attain that age.

New Spotlight

Having a special lens and a prefocused 200 watt electric bulb, a new spotlight for amateur photographers is asserted to provide as much light as most 500 watt spotlights.

COMING TO DALY CITY THEATRE

Making even the snow hot, Glenn Miller and his orchestra play seven new smash hit tunes in the latest 20th Century-Fox hit, "Sun Valley Serenade," which stars Sonja Henie and John Payne. Milton Berle, Lynn Bari, Joan Davis and the Nicholas Brothers complete the featured cast of the entertaining film, which will be shown at the Daly City theatre, Thursday, Friday and Saturday.

Smoking Dog

One of the reasons Spokane County Superior Judge Fred Witt would not consider appointment to the Supreme court for which he was recently prominently mentioned was that his wife preferred to remain in Spokane. And one of the reasons that Mrs. Witt preferred to remain in Spokane was that she feared the change of climate might not be good for her 10-year-old pet fox terrier Tiny. Tiny is a fastidious animal in that he cannot start the day, Mrs. Witt says, without a cup of coffee well seasoned with sugar and cream, after which he demands a cigarette.

Testing Tires

A machine has been invented to test the durability of automobile tires by subjecting samples of their material to twice the number of impacts to which the tires would be subjected in use.

Flour Exporter

For the past seven years Australia has been the world's largest flour exporter.

Hull Mentioned

During a press conference in Washington, former Gov. Alf M. Landon of Kansas, inadvertantly referred to Secretary of State Hull as "President Hull."

"Is that slip significant?" inquired a reporter.

"Not especially," replied the 1936 Republican presidential candidate, but he conceded that if the Democrats picked Mr. Hull they would at least have a good candidate.

Pals

Raccoons have an ideal home life, says the National Park service, because the male shares the responsibility of rearing and training the children.

Pays Debt

L. B. Evans, a farmer of Alberta, Canada., pays his debts even if they are 15 years old. He sent a check for $20 to the city of Los Angeles for his hospital bill in 1926, at the pest house. The city wrote back that the treatments were free, but Evans refused to take back the money.

Worth giving thanks for— Individual Hot Mince Pies

Individual Hot Mince Pies

1 recipe Spry Piecrust
1 pint mincemeat

Roll ⅓ of pie dough to ⅛-inch thickness and line 6 individual pie tins. Fill pie shells with mincemeat.

Roll remaining dough for top crusts and cut or prick a decorative design to allow steam to escape. Fit dough over mincemeat, trim ½-inch larger than pans, then fold under bottom crusts. Seal edge with fork. Brush tops of pies with milk. Bake in hot oven (425°F.) 30 minutes.

Spry Piecrust

2¼ cups sifted all-purpose flour — ⅔ cup Spry
1 teaspoon salt — 5 tablespoons cold water (about)

Sift flour and salt together. Add ⅓ of Spry and cut in until mixture is as fine as meal. Add remaining Spry and continue cutting until particles are size of a large pea. Sprinkle water gradually over mixture. With a fork, work lightly into a dough. Add just enough water to moisten.

(All measurements in recipes are level)

Coal in U. S.

One-third of the world's supply of coal is produced annually in the United States.

Tender piecrust— sweet as a nut

• What's the crowning touch to Thanksgiving dinner? Why, hot mince pie, of course! Mince pies hot and fragrant, in flaky, tender piecrust.

And here are mince pies in a million — luscious, spicy individual desserts, with delicate, nut-sweet pastry. Easy to digest, too, even after a hearty Thanksgiving dinner.

No fuss to make

These enticing little pies are mixed in jig-time, with creamy, smooth Spry as your shortening. In fact, you can bake them easily any time, using homemade mincemeat from your preserve shelf or a packaged variety. Let these tempting mince pies make their debut on your Thanksgiving table — then, whenever you serve them, the family will say they're cause for thanksgiving! (112)

Home Work

Since the invasion of Holland and Belgium, members of the senate committee handling army and navy affairs have taken to holding off-the-record evening meetings in each other's homes to brush up on the facts about Uncle Sam's defenses, with high United States military and navy officials invited in as "teachers." The speed with which the senate has acted on national defense measures is taken as evidence that the senators are apt pupils and learn fast.

Dixie Named

A New Orleans bank was responsible for the popular term "Dixie," applied to the land below the Mason-Dixon line. Henry E. Elrod, Houston, engineer and numismatician, said the Citizens bank of New Orleans was the originator, through its 10 piastre notes. The notes were issued in 1859, printed half in French and half in English. On the face of the note was the word "Ten" and its corresponding French word, "Dix." Southerners called the bills "Dixie." In those days, states issued their own money and much of it was almost worthless. The New Orleans bank was in prosperous condition, however, and the bills spread over the southland, which gradually became known as the land of the "Dixies," and finally, Dixieland.

Ticket Trickery

If you can get a traffic ticket "fixed" in your town the chances are that more serious offenses are also being condoned, according to the National Consumers tax commission, whose tax reduction drive seeks additional municipal economy and efficiency.

Antarctic Lemonade

Scientists have discovered a mixture of chalk and lemonade in mineral form at a depth of 13,000 feet in the Weddell sea of Antarctica. The scientists cannot explain how the citric acid of lemonade, heretofore found only in plants, came to be at the bottom of the Antarctic.

Human Head Sacred

In the Fiji islands, the human head is held to be sacred and it is an insult to reach above the head of another person. Women in consequence crawl on their hands and knees when men are at leisure beside a house. Persons who have been insulted are likely to commit suicide to eradicate the shame.

Diversified Ownership

One of the largest American oil producing companies supplies 21,000 retail outlets, yet it owns and operates but six of these filling stations, Axtell J. Byles, president of the American Petroleum institute, reports.

Dog Stays On

Frank Brusewitz has retired as station agent for the Great Northern railroad here but his faithful dog, Terry, carries on. Terry reaches the station every morning at 7:30 o'clock, meets all passenger trains and then trots to the post office and bank—a routine he followed with his master for years.

40 Per Cent

Passengers now account for 40 per cent of the income of the air lines of the United States.

Chemicals in Textiles

Textile fibers, including cotton, linen, rayons, silk and wool, are built up mainly from carbon, hydrogen and oxygen, although silk has in addition some nitrogen, and wool has nitrogen and sulphur.

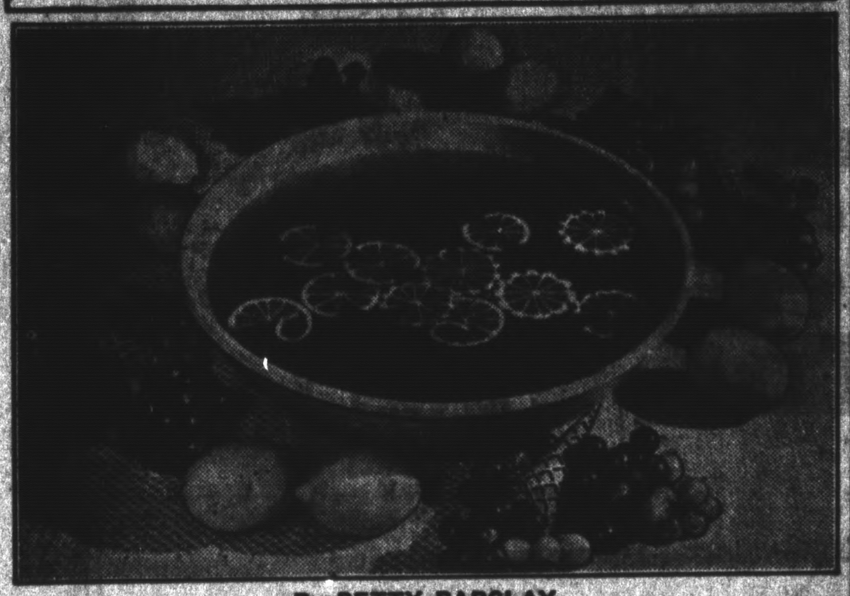
Lemon-Grape Ade, A Harvest Specialty



By BETTY BARCLAY

Holiday festivities — Thanksgiving and Christmas—give hostesses elegant opportunities to "star" in their own homes. These get-togethers, which are many during the last-of-the-year months, can be made more informal if the hostess is prepared to serve something even if it's simply a new variation of an old favorite.

Perhaps the quickest refreshments for such occasions are beverages with dainty cookies. Fresh fruit beverages are quickly prepared when oranges or lemons are kept on hand regularly because the juice of these citrus fruits provides a base for many different flavor combinations. Such taste-teasers add to the joyousness of the affair, yet do not interfere with a luncheon or dinner menu and, if desired, may also be served late in the evening.

Pictured above is a glamorous treat with plenty of eye appeal . . . truly a fruit beverage that answers that everlasting plea for "something different." The cornucopias which decorate the punch bowl are inexpensive and require no special preparation. They are ice-cream cones. Clusters of grapes are arranged so as to appear like they are over-flowing from the fall "horns of plenty." Clean-skinned lemons add a note of rich yellow color, truly a delightful contrast to the deep tones of the purple grapes and the white and green variety. Daintily cut lemon garnishes, floating in the beverage, add to both eye appeal and taste appeal.

When you are ready to prepare this beverage, you will need:

Lemon-Grape Ade

8 cups boiling water
1¼ cups sugar
2 cups lemon juice
2 cups grape juice

Dissolve sugar in hot water. Combine ingredients in order given. Serve hot in pottery punch bowl. Serves 12.

As an accompaniment to the fruit punch, crisp cookies which may be prepared in advance and which may be served with pride to the "most special" guests are just the thing. What could be more delicious than Lemon Shortbread Cookies? If you haven't ever tried them . . . well, you'll want to. Here's the recipe:

Lemon Shortbread Cookies

½ lb. (1 cup) butter or substitute
6 tablespoons powdered sugar
2 cups flour
1 cup nuts, ground
1 teaspoon vanilla
1 tablespoon grated lemon peel

Cream butter and sugar. Stir in flour and nuts. Add flavorings. Form into 100 crescent shapes. Bake in slow oven (250-300 degrees F.) until thoroughly baked but not browned. When stone cold sprinkle with powdered sugar.

Red and Black Beauty

STRIKING CONTRAST in both color and design is combined to make this a perfect tea dancing frock for the college girl or her older sister. Notice how the black panels are inserted and add inches to the height of petite CBS actress Helen Lewis who is heard on the "Big Sister" series. The appliqued flower and leaf design break it up just enough to give it interest. (From Lanz of Salzburg.)

Profits in Modernization

More than 1,000 grocery store owners, members of the Independent Grocers Alliance, recently studied a survey on increased profits resulting from storefront modernization with structural glass. It was revealed that average profits increased 30 per cent the first year after modernization and that the average gross receipts rose from $21,000 to $28,000.

No Blackout

Failure to display full lights on their baby carriages during the blackout cost four women four shillings (about 80 cents) each. They were fined in magistrate's court at Walsall, Staffordshire. The arrests were made after one of the carriages was hit by an automobile.

Use Sink Stoppers

In dry Oklahoma sink stoppers can be part of a police officer's equipment. When Lieut. V. O. Webb and two other officers raided a home a woman emptied a dishpan of liquid into the sink. Webb quickly stoppered the sink, drained and siphoned out a quart of what he says was whisky. He was carrying the stopper in his pocket.

Book Wear and Tear

W. J. McHenry, who annually supervises the mending of the 3,000 library books at the University of California, reports that it is always the first 20 pages of a book that suffer the greatest damage due to the efforts of students to concentrate on them. The middle and the end rarely ever have to be renewed.

Florida's Edible Fish

Of the more than 300,000,000 pounds of fish caught in Florida waters annually, little more than one-third are of the edible variety, according to R. L. Dowling, state supervisor of conservation. The non-food fish, mostly menhaden and sharks, are used in the manufacture of fertilizer, oils and novelties, Dowling explained.

An 'All-American' Thanksgiving

No holiday celebrated within the boundaries of these United States is so typically American as Thanksgiving. So closely is it tied to home, that the average American heart, as Thanksgiving approaches, becomes as full and overflowing as the harvest the holiday commemorates.

This year, more than any other, Thanksgiving assumes new importance. Behind the traditional bustle that surrounds the American kitchen as Mrs. America plans her holiday menu, is a new feeling, a rebirth of patriotism. We have much for which to be thankful!

And this year, when the tempting spices waft out from the kitchen, there will be a new note—an all-American note. For conditions abroad have brought changes into menus specially prepared for the day. Tables will be absent of many foods—cheeses, spices, oils and wines — which once came from abroad. But their places have been taken by excellent American products—American-made for American tastes. Wine, once imported from sunny France, is now pressed into rich perfection in our own sunny California; Wisconsin's dairy farms have tirelessly turned to the manufacture of cheeses to replace products formerly shipped from abroad.

With the all-American theme in mind, Jane Floyd Buck, well-known nutritionist, has prepared a holiday menu, emphasizing such typically American products as cresta blanca wine and hominy, and a turkey stuffing of the south's own nut, the pecan:

All-American Thanksgiving Dinner

Apple Cider Frappe in Apple Shells
Michigan Celery
California Olives
Roast Turkey with Pecan Stuffing
Hominy Souffle Steamed Squash
Baked Onions Stuffed with Cheese Sauce
Deviled Green Beans
Molded Cranberry Jelly and Watercress Salad
California Wine
Pumpkin Pie Coffee

Live by Fishing

Eskimos in Greenland now make a living through fishing, whaling, sealing or hunting.

Soundproof Clubs

Miami Beach night clubs must be both soundproof and air-conditioned, under a city ordinance.

Last Word in Television

The new television antenna just completed atop the Chrysler building in New York is the only one of its kind in the world. Built to withstand a 150-mile gale, it consists of four hollow tapered aluminum bars, electrically heated to prevent formation of ice in the winter.

No Log Cabins

Although most American illustrations picture them in log cabins, the late Harold R. Shurtleff, in the Log Cabin Myth, published by Harvard University Press, states that there were no log cabins in early New England or Virginia. They built frame houses.
